HOW DOES IT WORK?

- All orders confirmed within Monday 12 o'clock will be ready on Friday of the same week and delivered to your warehouse the following week.

*excluded holiday weeks according to Italian calendar.

- Products available in the RAPIDO price list have priority: for that reason orders cannot contain articles outside the RAPIDO price list. All other Martex items will have our standard production time.
- Customizations and non-standard sizes will not be available for items in the RAPIDO price list.
- Contribution for delivery charges:

Austria, Belgium, Netherland, Luxembourg, Germany and France Métropolitaine, (excluding Corsica and Dom-Tom), Switzerland* *Italian customs operations: 60 €	With total net amount below € 1.200,00 contribution of € 90,00
Spain (excluding Balearic and Canary Islands) Great Britain** (London and Southeast) **IT/UK customs operations: 120 €	With total net amount below € 1.500,00 contribution of € 100,00
Rest of the Great Britain** and Portugal **IT/UK customs operations: 120 €	With total net amount below € 1.500,00 contribution of € 120,00

> **DESK, BENCH AND MEETING TABLES WITH BRIDGE LEGS**
Melamine tops th. 14 mm: 14 mm thick wooden particle board panel, melamine-coated paper bianco, titanio, olmo and rovere naturale. ABS edge 1,5 mm thick same finish of the toD.
Melamine tops th. 30 mm: 30 mm thick wooden particle board panel, melamine-coated paper bianco, titanio, olmo and rovere naturale. ABS edge 1,5 mm thick same finish of the top.
Beams: made of square steel tube of mm. 30x30, th. 2 mm painted with epoxy powders, white and black finish. The connection between legs and beams is made by square steel tube of mm. 25x25, th. 2 mm joints welded to the leg.
Bridge legs: realized with square steel pipe, 2,5 mm thickness and size 35x35, painted with epoxy powders in white or black colour; equipped with leveling feet made in nylon, white or black finish.

All the screws used in the system are metric ISO, included in the hardware package.

> **MEETING TABLE WITH PILLAR LEGS**
Melamine tops th. 14 mm: 14 mm thick wooden particle board panel, melamine-coated paper bianco, titanio, olmo and rovere naturale. ABS edge 1,5 mm thick same finish of the toD.
Melamine tops th. 30 mm: 30 mm thick wooden particle board panel, melamine-coated paper bianco, titanio, olmo and rovere naturale. ABS edge 1,5 mm thick same finish of the toD.
Pillar legs: with round metal plate 10 mm th. and vertical square metal pipe size 80 mm, the upper metal plate is drilled to fix the pillar leg to the topwith screws. Painted with epoxy powder in white and black matt colours.

> **CABLE MANAGEMENT**
Desk and bench horizontal cable management:
- Top access (type C) 260x120 mm made by extruded aluminium, with easy access in anodized aluminium finish white or black.
- Top access (type E) Ø 80 mm made in ABS, black and white finish.
- Plug in (type G) inside diameter 80 mm, equipped with plugs: data and power + usb; with sliding cover white and black finish.
- Power module on top (Type P): built in power socket (Shuko, France, UK) + 1 powered USB port.
Underneath cable management
- Metal cable tray made with steel plate, painted with epoxy powder white finishing, the single track tray (for single desk) is fixed to the top through screws, the double track tray (for bench and meeting table) is fixed to the beams without screws.
Vertical cable management
- Vertebra for cable, made in transparent ABS, can be connected to the desk top or to the metal cable tray.
- Vertebra for cables, steel made chromed finish with internal brush.
- Structural leg for cable management, made with square steel pipe mm 50x50, 2 mm thickness painted with epoxy powders in white colour; it can be also covered with an elastic grey fabric class 1 fire tested, easy to remove. The space inside the fabric is used to hide the cables.

> **SCREEN**
The screens are connected to desktop through angular junctions and brackets or, in bench version, in support of the central supporting beams, through 30/10 sheet metal brackets and steel pins, all blocked by screws on the floors.
Wooden screen: wooden particle board panels thickness 18 mm, melamine-coated paper bianco, titanio, olmo and rovere naturale finishing.
ABS edge thickness 1,5 mm same finish of the screen.They are available also free standing supported by sheet metal brackets and pins resting on the tops.

> **MODESTY**
The modesty panels are fixed to the desk by special folded metal sheet brackets positioned between the top and the beam and locked by metric screws.
Modesty: wooden particle board panels 18 mm thickness, melamine-coated paper bianco, titanio, olmo and rovere naturale finishing. 1,5 mm thick ABS edge in same finish of the modesty.

> DESK AND BENCH

Melamine top: 30 mm thick, wooden particle board panel, melamine-coated paper white, olmo, titanio and rovere naturale finishing. ABS edge, 1,5 mm thick.

All the tops are equipped with custom screws for the fixing of the top to the metal structure. To get the right strength, the tops L. 1800 mm and L.2000 mm are equipped with metal rods, hidden inside the panel.

Central beams, for bench and meeting table: made with steel pipe, 2 mm thickness and rectangular size 100x50 mm, painted with epoxide powders in titanio color. They are engineered to be equipped with metal tray for cable support, screens, cantilevers.
Pigreco Bridge legs: made in metal steel plate 2,5 mm thickness, bended with acute angle and variable section. Painted with epoxide powders in white, black and titanium colors. Available also lacquered in 6 matt polyurethanic colors, as per catalogues list.

Leg Beams: to connect the bridge legs, made in metal steel plate 2,5 mm thickness, bended with trapezoidal section. Engineered to match the central beam and get connected with it without screws, this beam has loopholes for the electrical cable passage. Legs and beam are welded wire, not visible. Legs and beam are painted with epoxide powders in white, black and titanium colors. The legs are equipped with leveling feet made in ABS with steel screw.Pigreco single metal legs: made in metal steel plate 2,5 mm thickness, bended with acute angle and variable section. Equipped with triangular metal plate on top, drilled to fix the leg to the top. Painted with epoxide powders in white and titanium colors. The legs are equipped with leveling feet made in ABS with steel screw.

Pigreco wooden legs: made with two solid ash wood panels jointed at the corners, obtaining in this way an acute angle recess in the inner part. They are painted with matt acrylic paints and equipped with levelling feet made in ABS with steel screw. Equipped with triangular steel plate on top, drilled to fix the leg to the top, painted with epoxide powders.

The metal single legs are also available in chromed finish.

Pigreco Loop leg: rectangular tubular steel section mm 50x20 th. mm. 2,0, equipped with welded steel top plate th. 5.0 mm with holes for fixing to the top, painted with white, black and titanio epoxy powders. All legs are equipped with leveling foot made of ABS with steel screw.

Pillar legs: with round metal plate 10 mm thickness and vertical square metal pipe size 100x100 mm, the upper metal plate is drilled to fix the pillar leg to the top with screws. Painted with epoxide powders in white, black and titanium colors.

All the screws used in the system are metric ISO, included in the hardware packaging.

> DESK AND BENCH CABLE MANAGEMENT

Horizontal cable management:

- Top access (type C) 260x120 mm made by extruded aluminium, with easy access in anodized aluminium finish white, black or chrome.
- Top access (type E) Ø 80 mm made in ABS, black and white finish.
- Plug in (type G) inside diameter 80 mm, equipped with plugs: data and power + USB; with sliding cover white and black finish.
- Power module on top (Type P): built in power socket (Shuko, France, UK) + 1 powered USB port.

Underneath cable management: metal cable tray made in steel plate, painted with epoxy powder white finishing, the single track tray (for single desk) is fixed to the top through screws, the double track tray (for bench and meeting table) it is fixed to the central beam without screws.

Vertical cable management:

- Leg cover, made in metal plate, painted with epoxide powders in white and titanium colors. Available also lacquered in 6 matt polyurethanic colors, as per catalogues list. It is fixed inside the leg in order to create a channel, inside the leg, to allow the cables run through.
- Vertebra for cable, made in transparent ABS, can be connected, to the desk top or to the metal cable tray, with screws.
- Central metal box, made in metal plate 1mm thickness, Painted with epoxide powders in white and titanium colors. Available also lacquered in 6 matt polyurethanic colors. It is fixed to the central beam with magnets and it can be installed at any position along the beam.

> SCREEN

The screens are connected to the desk top with metal brackets or, in the bench, they are connected to the central beam with metal pivots.

Wooden screen: wooden particle board thickness mm 18, melamine-coated paper white, olmo, titani or rovere naturale finish, ABS edge thickness 1,5 mm. They are available also free standing.

> MODESTY

The modesty panel are fixed under the desk top, with metal brackets. It is possible to decide the position to fix the modesty.

Modesty: wooden particle board thickness mm 18, melamine-coated paper white, titanio or olmo finish, ABS edge thickness 1,5 mm.

> DESK

Melamine wooden tops: wooden particle board thickness 14 mm melamine-coated paper white, rovere naturale, titanio or olmo, ABS edge 1,5 mm. All wood tops are equipped with high-powered magnets fixed on the bottom, to attach them to the perimeter steel structure, the centering of the same is guaranteed by pins located on the top.

Beams: closed profile made of steel plate with triangular section thickness 1.5 mm with continuous welding on the inside, painted with epoxy finish white or titanio. They are equipped with slots on the inside for the attachment of the brackets.

Legs: the upper joint is made of die-cast aluminium-zinc alloy, coated with epoxy powders finishing white or titanio. The central part of the leg is made of extruded aluminum painted with epoxy powders finishing white or titanio. The bottom cap is made of die-cast aluminium-zinc alloy, coated with epoxy powders finishing, white or titanio. Feet leverer made of ABS with steel screw. These three parts are fixed together to make one piece.

The assembling of the perimetral beams and the legs is made by zinc plated corners, with strong thickness, fixed to the corner with a single screw.

> CABLE MANAGEMENT

Horizontal cable management:
Cable port (type C) 260x120 mm made by extruded aluminium with easy access.
Cable port (type D) diameter 80 mm made of die-cast aluminium-zinc alloy, chromed finish with brush.
Cable port (type E) diameter 80 mm made in ABS in aluminium, white or black finish.
Plug in (type G) inside diameter 80 mm, equipped with 2 plugs: data and power, with metal sliding covers white and black finishing.
Power module on top (Type P): built in power socket (Shuko, France, UK) + 1 powered USB port.

Underneath cable management:
metal cable trays, made of steel plate, painted with epoxy powders finish white, aluminum or titanio, available in two types: the tray for single desk, is fixed inside the metal beams with high powered magnets, the tray for bench and meeting table, is fixed on both side to the beams of the structure.

Vertical cable management:
Clip on the leg, made in trasparente ABS, snap on the leg.
Vertebra, made in trasparente ABS, is fixed to the desk top or to the metal tray underneath.
Vertebra for cables, steel made chromed finishing with internal brush.

> MODESTY

The modesty panel it is fixed to the beams, using special supports, on the site you can choose the position of the modesty panel.

Modesty: wooden particle board thickness 18 mm or 30 mm, melamine-coated paper white, titanio, rovere naturale or olmo, ABS edge 1,5 mm.

Wood top: top thickness 70 mm, made through folding technology with particles wood panels of 18 mm thickness, coated with melamine paper, edge in ABS 0,6 mm, in the same finishing of the surface.

L shaped legs: legs thickness 70 mm, made through folding technology with particles wood panels of 18 mm thickness, coated with melamine paper, edge in ABS 0,6 mm, in the same finishing of the surface. The legs are equipped with levelling feet.

Bridge legs: made with birch multilayer wood, joined with 45° cut at the corners. Painted with polyurethane varnish available in several colors as listed in the catalogue, matt or glossy lacquered finishing.

> CABLE MANAGEMENT

- Top access (type C) 260x120 mm made by extruded aluminium, with easy access in anodized aluminium finish, white or black.
 - Top access (type E) Ø 80 mm made in ABS, aluminium, black and white finish.
 - Cable port (type D) Ø 80 mm made with die-cast aluminium-zinc alloy, chromed finish with brush.
 - Plug in (type G) inside Ø 80 mm, equipped with plugs: data and power + usb; with sliding cover white and black finish.
- Under the desk it can be fixed a metal tray for cable and plug support.
- Vertebra for cable, made in transparent ABS, can be connected to the desk top or to the metal cable tray.
 - Vertebra for cables, steel made chromed finish with internal brush.The CPU holder is made in steel pipe, aluminum painted, fixed under the desk top.

> MODESTY PANEL

Made with particles wood panels of 18 mm thickness, coated with melamine paper, edge in ABS 0,6 mm in the same finishing of the surface.

The modesty panel is supplied with metal hardware to fix it under the desk top.
